

INTELLI

EdgeAI API | Everywhere, Anytime, for Everyone

68% of global consumers are “somewhat or very concerned” about online privacy, and **57%** view AI as a significant threat to their privacy

| <https://termly.io/resources/articles/ai-statistics/>

90% of GenAI tools in organizations **lack proper oversight**, and **65% of employees use free tiers** (e.g. ChatGPT)

| <https://www.axios.com/newsletters/axios-codebook-38f09de0-e257-11ef-8ac2-05372d4f3eec?>

Accelerating AI workloads have thrust **78% of organizations to rely on AI**, but cloud and hybrid infra remain brittle

| <https://www.techradar.com/pro/the-need-for-robust-ai-infrastructure?>

The World Needs Agentic AI But It's Not Ready Yet

Lack of sovereignty, connectivity, and real autonomy is holding us back.

NO cloud
NO internet
NO data leaving the device

100% Local Inference
Built for Privacy & Compliance
Lightweight + Optimized
Multimodal Support (Text, Voice, Vision)
Deploy Anywhere — Even Offline

We're at the **Perfect Intersection** of **Software, Models, and Demand.**

Local AI models are now fast and accurate enough to run offline.

Millions of SMEs and underserved regions need AI — but Big Tech won't reach them.

EdgeAI APIs are here — and ready to scale.

This moment won't last.

**Whoever brings
EdgeAI to the masses
first wins the market.**
